

# STRUCTURED LITERACY

orioneducation.org

## FULL DAY TRAININGS

- We offer a full day of structured literacy information for both elementary and secondary. The training can also be split into two half days, if needed.
- Trainings move teachers beyond the original 6-hour KSDE training, with some review. These trainings focus more on the implementation of structured literacy in the Tier I classroom, as well as information on how to better identify and meet the needs of Tier II and Tier III students.

## BOOK STUDIES

- We will be offering book studies this summer and beyond through Orion.
- Districts could start that anytime with an independent study group. College credit is available for teachers.

## LETRS TRAINING

- This summer, Heather and Tanya will offer their first cohort of LETRS training. This training will be free for teachers in K-3 classrooms.
  - Training is reimbursed by KSDE.
  - Cohorts will last for 2 years.
  - Teachers will attend 4 full-day, in-person trainings with Heather and Tanya, but will also be responsible for several hours of work online on their own. (approximately 40 hours)
  - This is an AMAZING training, but it takes a commitment!

Dr. Heather Eubank

Tanya Jacobucci

## ONGOING SUPPORT

- We can customize additional trainings to meet the needs of your district based on where you are in the journey. Topics include:
  - Comprehension strategies
  - Modifications/Accommodations
  - Four Part Processing Model
  - Advanced phonics/morphology
  - IDA Dyslexia Simulation Stations for teachers to better understand why structured literacy is the way we should be instructing ALL students.
- This information can be delivered during late starts, early release days, PD days, PLC times, team meetings, etc.
- We also offer classroom coaching in these areas.

## CURRICULUM / TEXTBOOK EVALUATION OR ADOPTION

- We can also help you evaluate current curriculum or adopt new. Consultants can share available products with the districts for their review. We can work with teachers to re-evaluate curriculum through the lens of structured literacy.

We have several training options to help your staff dig even deeper into structured literacy.
